*best regards,*

At a time when the contacts established with you gave me hope that you were ready to show the world the proof of your good will in the progressive establishing of a peace process in the whole of Bosnia and Herzegovina and particularly in Sarajevo, I have received the dismaying news that your forces have proceeded with the forced expulsion of nearly three hundred persons from GRBAVICA.

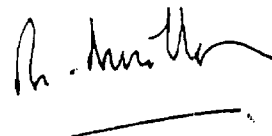

You will surely understand that the execution of such an act, while you were in GENEVA endeavouring to restore the image of your side, could only have had the most deplorable effect.

I am willing to believe that you are not liable in this case, and that you will punish those responsible of this inhuman action as well as rectify its results.

I am looking forward to another meeting with you which I am ready to assume in the shortest delays.

*best regards -*
